In this engaging presentation, Chez and Janie take you on a journey to communist Poland where a young Chez makes a decision that changes his life in ways he never expected. The journey also includes a visit to the day when one simple question changed Janie's life forever. These stories and others help you discover how an open mind, perseverance, and humor play significant roles in turning life's surprises into rewarding journeys.

Weaving together stories, humor and music, this dynamic team reinvigorates you; helping you out of complacency (and sometimes, your chair) by letting you see how the seemingly ordinary micro-minutes in life have the potential to change not only your life, but the lives of everyone you touch.

“I've arrived!”

Many of us strive our entire lives to be able to say that. However, the truth is that we never **really** arrive. The journey from birth to death is a road full of never-ending surprises. Rarely do things turn out exactly like we planned. We can use those surprises to take us places we never expected to go.

Learning Objectives:

Understand how opening the mind changes all aspects of your life; both personally and professionally.

How “WE-thinking,” and “WE-imagining” creates a winning outcome immediately.

How to overcome life's challenges with perseverance and vision.

How the Affirmation Process builds team esteem.

Discover the area in which you need support and strength for a better life.

What you need to do now to refresh mind and spirit.

How your story opens new ways of making procedures and policies easier to remember and more fun to do.

How humor attracts others to you to learn and listen.

Importance of having fun at work, at home, in life.

Discover how frequency of interaction relates to productivity.
