A customized message of laughter, hope, and music to the beat of your theme and objectives.

SHORT DESCRIPTION:

Weaving the inspirational story of Chez's gratitude and story of escaping from communist Poland as well as his original music with the spirit and humor of Janie Jasin. Your audience will be infused with laughter, hope, music, and the spirit of gratitude and generosity. This is personalized program JUST FOR YOU. Watch your audience soak up your message or motto set to music, which will be sung by the crowd and chanted with joy. Put a twist on some old patterns that tell folks to play cards, play golf, or bid on some big thing or another.

AUDIENCE WILL EXPERIENCE AND TAKE HOME:

Tradition of giving and sharing continues with each donation.

History and mission of your organization make a difference when supported and communicated.

The message delivered through music, laughter, love, and inclusiveness is powerful!

Our talents synchronized with your plan is a recipe for success.

Pain makes us humble. Music moves our hearts and feet. Laughter opens the arms of love.

Custom-crafted message is like homecoming—close, dear, and personal. We serve it to you.

Your guests soak up your message through our words and songs, and chant with joy! The beat goes on!
